

# YOUR UNION

Naughty OR  Nice

Recently some legislators have said your union has been naughty. Let's compare some facts on where we stand...

Issue	Your Union	Legislature\ Governor
Making ALL students a priority		
Quality learning conditions for every student		
Living wages for education staff professionals and teachers		
Class size		
Pre-Kindergarten education for all students		
Less testing to allow for more teaching		
Adequate education funding		

## We need you.

You, your local union, FEA and our national affiliates have put substantial resources behind all the issues mentioned. Now it is time to tell the Legislature to do the same.

**We need your help.** Write a post card with your best holiday wishes for your students in 2017 and send it to your legislator!

## Suggested Talking Points for Post Cards

Dear Legislator,

All I want my students to have for the New Year is:

- Small class sizes that allow them to receive individual teacher attention.**
- Adequate funding for books and technology.**
- Quality learning conditions.**
- More learning time by reducing testing time.**
- School employees who can dedicate 100% of their efforts focusing on students needs and not having to work several jobs.**
