

**2018-2019 Contract Negotiations Update  
Week of June 18th**

The Pasco School Board took up the 2018-19 budget in their June 19th Workshop. Though it is still early in the process, now is the right time to reach out and advocate for them to prioritize substantive raises for employees. [Call, email, or join us at the next School Board Meeting.](#)

Both the **Instructional and SRP Negotiating Teams** have submitted proposals which seek to maintain and improve beneficial employee programs. Each team has met with their District counterparts twice, and **additional workgroups are engaged in review of both economics and teacher evaluations.**

Bargaining with the District continues through the summer. As these sessions are open meetings, members of the bargaining units are encouraged to attend and observe negotiations as they unfold. USEP members are receiving detailed weekly communications from the Negotiating Teams so they can stay informed of individual agreements as they are reached.

Don't forget: our power is in our numbers -- ***we are stronger when we stand together!***
